A PRACTICAL GUIDE TO DOING BUSINESS WITH  
THE FEDERAL GOVERNMENT

AND

## Directory of Federal Procurement Offices

## Message from the Area Director-

Last year the Federal Government bought more than **\$331 Billion** in goods and services ranging from paper clips and janitorial services to space shuttles and advanced scientific research - and pretty much everything in between. While dealing with the Federal Government can be a formidable task at times, I believe that the Small Business Administration (SBA), through our Office of Government Contracting (GC) can assist you to market your firm's products and services.

Knowledge is power! We hope this guide and directory will help you overcome any uncertainties that you may have and be a useful tool for you. Best wishes and Good Luck!

***Robert S. Paccione***

### **SBA GC Area VI -**

Providing Small Business with the competitive edge

**\*\*\*\*Special Notice Related to Gulf Coast Region Relief Efforts\*\*\*\***

The SBA is working very closely with other Federal agencies and large prime contractors to ensure that small businesses, particularly those from the Gulf Coast Region (GCR), are provided with an opportunity to compete for prime and subcontracts related to the relief effort. Although contract opportunities for GCR procurements are advertised on the FedBizOpps webpage at [www.fedbizopps.gov](http://www.fedbizopps.gov) (use the keyword search function to identify these solicitations) the following **SBA PCRs** are specifically tasked to assist you with Hurricanes Katrina and Rita relief contracting efforts:

- **Kenneth Enclave** US Army Corps of Engineers, Louisiana, (504) 862-2992 [kenneth.enclave@sba.gov](mailto:kenneth.enclave@sba.gov)
- **Paul Stone**, US Army Corps of Engineers Ft. Worth, TX, (817) 886-1024  
[paul.p.stone@swf02.usace.army.mil](mailto:paul.p.stone@swf02.usace.army.mil)
- **Gary Heard**, Redstone Arsenal, AL, (256) 842-6240, [gary.heard@sba.gov](mailto:gary.heard@sba.gov)
- **Barbara Jenkins**, NASA Marshall Space Flight Center, (256) 544-5012, [barbara.jenkins@msfc.nasa.gov](mailto:barbara.jenkins@msfc.nasa.gov)
- **Bernard Durham**, Department of Homeland Security, Washington, DC, (202) 401-3122,  
[Bernard.Durham@sba.gov](mailto:Bernard.Durham@sba.gov)

# Twelve Step Program for Success

*Dealing with the Federal Government can seem like a formidable task at times. However, with a little patience, persistence and perseverance on your part -- your efforts will be rewarded in the long run. To assist you, we developed a series of procedural steps essential for success. Good Luck!*

## 1. Become familiar with the SBA/GC Internet Homepage.

The SBA offers a wide array of programs and “hands-on” assistance to small businesses considering the federal marketplace. Go to our website at <http://www.sba.gov/bussinessop/index.html> and familiarize yourself with the programs and services we offer. From this site you can identify local SBA contracting experts who can be an invaluable resource to you, whether you are new to government contracting or are currently doing business with the Government and are seeking advice on how to deal with a particular issue. From the “Resources and Opportunities” section on our website, you will find links to additional procurement-related programs and assistance. In addition, this site provides information about other SBA resources including Small Business Development Centers, Service Corps of Retired Executives (SCORE), and Women’s Business Development Centers. Log onto the SBA/GC website today and find out why we believe that it is truly the entrance ramp to the Government’s procurement Super-Highway.

## 2. Determine if your firm qualifies for one of SBA’s Certification Programs.

Formal certification by small business concerns is not required to bid on Federal contracts. Firms self-certify that they are small at the time of bid/proposal submission. The SBA currently has 3 contracts-related certification programs. Our 8(a) Business Development program assists eligible small businesses to compete through business development assistance. Although primarily a business development program, there are certain contracts restricted to certified 8(a) concerns. Certification in our Small Disadvantaged Business (SDB) and Historically Underutilized Business Zone (HUBZone) programs entitles qualified firms to special bidding benefits in the Federal-contracting arena.

The SBA offers an on-line application process that makes it easier, faster and less expensive for small firms to apply for 8(a) Business Development, Small Disadvantaged Business (SDB) and HUBZone certification directly from SBA’s website, eliminating the need to download and complete a “paper” application. The applications are 100% Web-based, which incorporates context sensitive help, real-time validation, printer-ready versions and integrates with the Central Contractor Registration (CCR) database.

To learn more about these programs and to determine if your firm qualifies for 8(a), SDB, or HUBZone certification go to the appropriate SBA website (<http://www.sba.gov/8abd>; <http://www.sba.gov/sdb>) and, <http://www.sba.gov/hubzone>)

Although not a formal certification program, in May 2004, the SBA announced a new procurement program that will boost federal contract opportunities for service-disabled veteran-owned small business (SDVOSB) concerns. Under the new rule contracting officers may restrict contract awards to SDVOSBs where there is a reasonable expectation that two or more SDVOSB concerns will submit bids at a fair market price. If the anticipated contract price will not exceed \$3 million (or \$5 million for manufacturing contracts) the new rules allow for a sole-source award, if there is not a reasonable expectation of competitive bids/offers from 2 or more SDVOSB concerns. The rule allows SDVOSB concerns to self-certify. Any challenge to a concern’s status as a small business or as a SVOSB must be referred to the SBA for resolution. To view the new rule, go to <http://www.sba.gov/VETS/implementation.htm>.

## 3. Obtain a DUNS Number, and register in the Central Contractor Registration (CCR) System.

If you do not already have a “DUNS Number,” contact Dun & Bradstreet (D&B) at <http://www.dnb.com/> to obtain one. Your DUNS Number is an important “identifier”, used for a multitude of purposes by the Government in the contracting arena.

The Government’s Central Contractor Registration (CCR) database holds information relevant to procurement and financial transactions. CCR affords you the opportunity for fast electronic payment of your invoices. You must be registered in CCR to be awarded a Federal contract. To learn more about CCR log onto the website at <http://www.ccr.gov> On January 1, 2004, the SBA’s Procurement and Marketing Access Network (PRO-Net) was integrated into CCR to provide a single portal to assist small businesses with marketing their goods and services to the Federal government. The CCR-PRO-Net linkage is part of a comprehensive strategy to transfer PRO-Net’s functions to the E-Gov Business Partner Network (BPN) in order to simplify government-wide vendor registration. The BPN is part of the Integrated Acquisition Environment (IAE), one of the e-government initiatives to create integrated business processes for buyers and sellers in the federal marketplace. For more information about IAE, visit the website at <http://egov.gsa.gov>

Effective April 17, 2005, CCR will make changes to firm’s Trading Partner Profile (TPP) to display a firm’s small business size

status according to each NAICS code listed (CCR will use 2002 NAICS codes), based on the firm's inputted revenue and/or employee size information. The SBA's small business size logic will populate fields indicating if a firm is certified as an 8(a) Business Development, small disadvantaged business (SDB) or historically underutilized business zone (HUBZone) program participant. Questions concerning your CCR registration should be directed to the CCR Assistance Center, at 888-227-2423.

The Government has implemented the Online Certifications and Representations Application (ORCA) initiative to replace the paper based representations and certifications (more commonly referred to as "reps and certs") process required with the submission of each sealed bid (IFB) or request for proposal (RFP). Now using ORCA, a prospective contractor can enter their reps and certs information over the web once and will then be able to submit them electronically from the web. This is a mandatory requirement and firms must review/update their data at least once annually or as circumstances change. The ORCA website can be found by going to <http://www.bpn.gov> and clicking on "Online Reps and Certs" on the left side of the screen.

#### **4. Identify your product or service.**

It is helpful to know the Federal Supply Classification Code (FSC) and North American Industry Classification System (NAICS) Code for your product or service. Many government product/service listings and future procurements are identified by FSC. To identify FSCs applicable to your company log onto <http://www.scrantonrtg.com/secrc/fsc-codes/fsc.html>. Detailed information regarding NAICS can be found on the SBA website by clicking onto: [https://eweb1.sba.gov/naics/dsp\\_naicssearch2.cfm](https://eweb1.sba.gov/naics/dsp_naicssearch2.cfm). **NOTE:** Small Business Size Standards for all Federal Government programs formerly associated with Standard Industrial Classification (SIC) codes were replaced by those that SBA has established for industries as described in the North American Industry Classification System (NAICS). SBA has established a new table of small business size standards based on NAICS [www.sba.gov/size/](http://www.sba.gov/size/)

#### **5. Identify current Federal procurement opportunities.**

Federal Business Opportunities (FedBizOps) <http://www.fedbizopps.gov/> – the designated government-wide point of entry – is the exclusive official source for public access to notices of Federal contracting actions over \$25,000. (Agencies are encouraged to use FedBizOps to provide notices for actions of \$25,000 or less). Notices of proposed procurements were formerly publicized in the Commerce Business Daily (CBD). However, with FedBizOps designation as the one-stop Internet gateway to procurement opportunities, the CBD has ceased publication. Once you identify those Agencies and buying offices that purchase your products and services, it's a good idea to contact them directly to learn more about upcoming procurements (i.e., procurement forecasts) posted on websites or electronic bulletin boards.

#### **6. Familiarize yourself with the Government's contracting procedures.**

Be familiar with Federal Acquisition Regulations (FAR) (<http://www.acqnet.gov/far>) and the Defense Federal Acquisition Regulation Supplement (DFARS) <http://www.acq.osd.mil/dpap/>. You can also get access to other Federal agency FAR supplements from their respective web pages.

#### **7. Investigate Federal Supply Schedule (FSS) contracts.**

The General Services Administration (GSA) manages Multiple Award Schedules (MAS) contracts, also known as Federal Supply Schedule (FSS) contracts. Under MAS/FSS, contracts are awarded to multiple companies supplying comparable products and services at pre-negotiated prices, terms and conditions. Once GSA awards the contracts, Federal contracting officers and other authorized users order directly from the Schedule contractor. Many Federal purchases are, in fact, orders on MAS/FSS contracts. Contact the General Services Administration (GSA) for information on how to obtain a MAS/FSS contract: <http://www.fss.gsa.gov/> (Be sure that your marketing information and CCR profile contains information on any MAS/FSS contracts held by your firm).

#### **8. Seek additional assistance as needed in the Federal marketplace.**

There are a number of important resources that are available to provide you with "hands-on" assistance in the Federal marketplace:

**-SBA Procurement Center Representatives (PCRs) and Commercial Marketing Representatives (CMRs)** SBA has a nationwide cadre of procurement professionals who are charged with assisting small businesses and acting as their advocates at both the prime and subcontracting levels. PCRs assist small firms interested in doing business, as prime

contractors, directly with Federal agency buying offices. Our CMRs work with those small firms interested in identifying subcontracting opportunities with large businesses that have been awarded a Federal contract. To identify the PCR or CMR located nearest to you go to <http://www.sba.gov/gc/indexcontacts.html>.

**Procurement Technical Assistance Centers** ([www.dla.mil/db/procurem.htm](http://www.dla.mil/db/procurem.htm)) are located in most States. Procurement Technical Assistance Centers, while funded by the Department of Defense, provide technical contracting and marketing assistance to small businesses wishing to do business with any federal agencies.

They provide training and counseling on marketing, financial, and contracting issues at minimal or no cost.

**-Small Business Specialists** are located at each Federal buying office and can provide assistance on how to market to that Agency. An addendum to this document contains a listing of Small Business Specialists (sometimes referred to as SADBUS) in your state. A complete listing of Small Business Specialists can be obtained from each Agency's website. For example, links to the homepages of every DOD activity can be found on the **DefenseLink website**: <http://www.defenselink.mil/>. This information can be invaluable in researching the Federal marketplace and identifying your target market. Links to **Agency Procurement Forecasts** (<http://www.sba.gov/GC/forecast.html>) and other program information are available on their individual websites.

**-Directors of Federal Agency Office of Small and Disadvantaged Business Utilization (OSDBU)** are in place at the headquarters level of each Federal agency and department. They are responsible for ensuring that small businesses are afforded an equitable opportunity to compete for their agency's/ department's prime contracting opportunities. The OSDBU Directors have formed an Interagency Council which meets regularly to, among other functions, identify procurement practices that will enhance small business participation for the Government's procurement opportunities. A listing of each of the OSDBU directors can be found at: <http://www.osdbu.gov/Listofmembers.htm> .

## **9. Explore subcontracting opportunities.**

Regardless of your product or service it is important that you do not neglect our very large secondary market, Subcontracting Opportunities with Federal Prime Contractors. Be sure to check out our website at <http://www.sba.gov/GC/indexcontacts-sbsd.html>. The SBA/GC Subcontracting Opportunities Directory lists, by State, large business Federal prime contractors along with the name and telephone number of each firm's Small Business Liaison Officer (SBLO). We encourage you to investigate potential opportunities with these firms. Many of these firms also have websites that may be useful and we encourage you to contact their respective SBLO for subcontracting and teaming opportunities. The SBA's SUB-Net (<http://web.sba.gov/subnet>) is a valuable source for obtaining information on subcontracting opportunities.

## **10. Investigate other Federal programs.**

There are several other programs that may be of interest to you, such as individual Agency Mentor-Protégé Programs, the SBA's Small Business Innovation Research Program <http://www.sba.gov/sbir/indexsbir-sttr.html>, etc. Information on these and other programs is available on Agency websites <http://www.sba.gov/gc/indexresources.html>, and "click on" miscellaneous links to other Federal Government Acquisition sites.

## **11. Accept credit cards.**

More than 250,000 Federal employees are using the GSA Smartpay cards. As a vendor you can maximize your ability to capture government sales by accepting credit cards (Visa, MasterCard and Voyager). If you already accept these cards, you have no additional work to do. If you do not accept these cards contact a bank to establish a merchant account. For more information, visit GSA's website at <http://www.gsa-smartpay.com/> .

## **12. Market, Market, Market!**

The 3 most important words to remember in order to be successful in the Federal Procurement Arena is market, market, market. Hopefully, this guide will have given you some good ideas on how to market your firm. After you have identified your customers, researched their requirements, and familiarized yourself with the Government's procurement regulations and strategies, it is time to market your product or service. Present your capabilities directly to those buying offices that purchase your products or services. Realize that, like you, their time is valuable and if the match is a good one and you can provide them with a cost-effective, quality solution to their requirements the contract could be yours. Good luck and remember – you're not alone.

# **SBA's Government Contracting Area VI -**

## **Providing the Nation's Small Business with the competitive edge**

*The SBA's Office of Government Contracting Area VI office covers the states of Alaska, Arizona, California, Hawaii, Idaho, Montana, Nevada, Oregon, Utah, Washington, Wyoming and the Territory of Guam. The Area Office is located in San Francisco with field offices in Los Angeles, Santa Ana, San Diego (California), Phoenix, Arizona, Las Vegas, Nevada, Honolulu, Hawaii, Seattle and Auburn (Washington), Anchorage, Alaska and Ogden, Utah.*
